

Has applied for the *Florida Green Lodge Certification*

What does this mean? What do we do as a facility to display our commitment to the *Green Lodge Program*.

▪ **Water Conservation Programs**

- We have a towel reuse program offered in our guestrooms.
- We have a linen reuse program in our guestrooms.
- We have low flow faucets in our guestrooms.
- We have low flow showerheads in our guestrooms.
- We have low flow toilets in our guestrooms.
- We have water efficient laundry machines.

▪ **Energy Conservation Programs**

- In our kitchen and laundry we have energy star rated equipment.
- We have programmable thermostats.
- We have sensor outdoor lighting. (100%)
- We have sensor lighting in the back of the house. (30%)
- We have high energy efficient lighting. (fluorescent)
- We have an energy management system.

▪ **Waste Reduction**

- We recycle all newspapers on property.
- We purchase paper towels that are 40% post-consumer recycled content.
- We purchase bathroom tissue that is 95% post-consumer recycled content.
- We purchase facial tissue that has a minimum of 10% post-consumer recycled content.
- We participate in reduced packaging.
- We recycle office paper internally.
- We provide bins for recycling aluminum cans and plastic bottles in all guest vending areas.

▪ **Clean Air Practices**

- We use cleaning products that have earned the Green Seal. (All-Purpose, Glass Cleaners and Bathroom Cleaners)
- We use environmentally preferable High Efficiency Particulate Air (HEPA) filters.
- We clean all air handler units and coils at least annually and follow a preventative maintenance schedule and keep a record of these activities.
